---:0:---

In view of the location of a new Bullock Corps on the old site, which was occupied by the Pony Corps on Agram Plain, I have the honour to ask whether there would be any objection to the bullocks being watered from the Shinivagal Tank about 600 yards west of the site and near Shinivagal village.

2. There would be eventually 800 bullocks in the Corps and they would require 8,000 gallons of water par day.

3. A very early reply would be much appreciated, to enable me to make the final arrangements for allotting this site to the new Bullock Corps.

4. This is a temporary measure only as the Bullock corps will be moved elsewhere when pressed in 2 or 3 months.

SIR,

With reference to your Memorandum No.G.7861/PP.126-18-2 dated 29th October 1918 requesting to be informed whether there will be any objection to the Bullock Corps near Agaram to use water of the Shinivagal tank, Bangalore Taluk, I have the honor to forward herewith copy of letter No.712 dated the 3rd instant together with its enclosure from the Deputy Commissioner, Bangalore District, stating that the tank in question is a chowthayi tank belonging to Mr.N.V. Narasimha Iyengar, Advocate, and that the chowthayidar is unwilling to allow the use of water by the Bullock Corps for the reason that the tank water is insufficient for irrigation. Further the Amildar in his report says that at present there is only 1½ foot of water in the tank and that it is not fit for drinking purposes.

Extract from report No 562 of the amildar of Bangalore Taluk. (1)

The Nivrapal Tank referred to above is a Chowtayi Tank belonging to Mr. K. V. Narasimha Iyengar, advocate, Bangalore. In his statement before the Kasba Shekdar he states that the present stock of water is not sufficient for irrigating the crops grown thereunder and as such it cannot be used for any other purpose. The villagers also say that there are more than 60 acres of land under cultivation with paddy and ragi cane and it cannot suffice the crops. The Kasba Shekdar reports that there is only about 1½ ft of water and it already stinking and is not fit for drinking purposes. Under these circumstances the

works of this cannot be made
available for the use of the
